The image shows a web application interface with a modal dialog box for creating a new album. The background interface includes a search bar at the top with a magnifying glass icon and the text "Text Field: Search Box", a "Search" button, and a "Log Out" button. Below the search bar is a table titled "Albums" with columns "Name" and "No". The table contains rows for "Stock - 5 p", "Album1 - 2", and "Album Lalalala". At the bottom of the page is a navigation bar with four buttons: "Open Album", "New Album", "Rename Album", and "Delete Album".

The "New Album" dialog box is centered on the screen. It has a dark blue header bar. The main content area is light gray and contains the title "New Album" in bold, the label "Enter name for this album:", and a text input field with the placeholder text "Text field: Album Name". At the bottom of the dialog box are two blue buttons: "Cancel" and "Save".

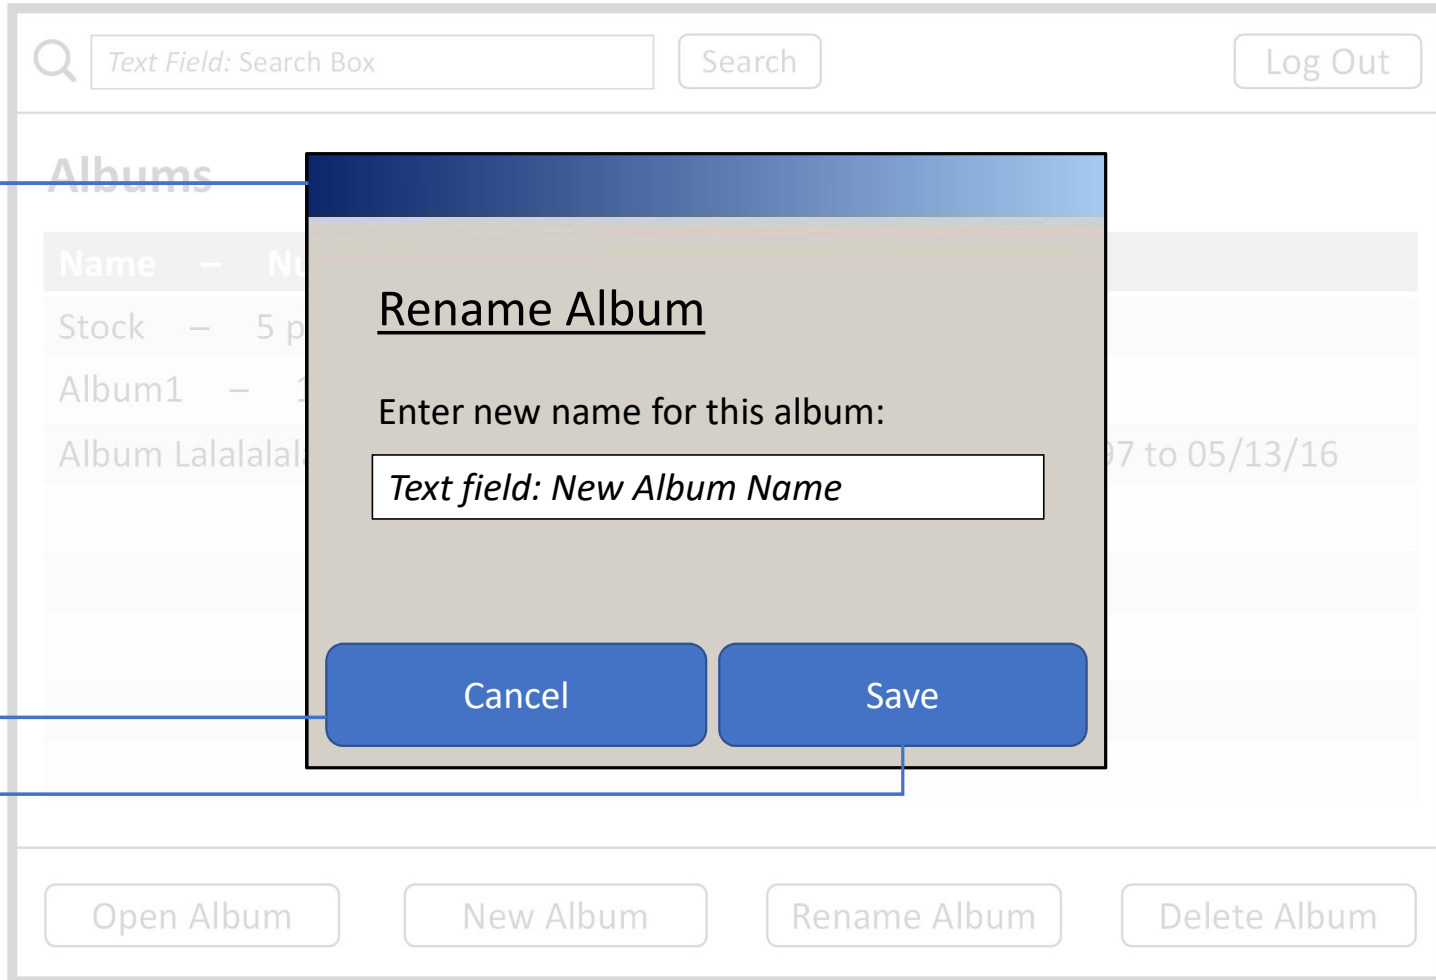

Annotations include a label "Text Input Dialogue" with an arrow pointing to the text input field, and a label "Buttons" with a diamond containing the number "1" and an arrow pointing to the "Cancel" and "Save" buttons. A diamond containing the number "2" is positioned above the "New Album" title.
